

COMFORT ABOVE ALL.

For a Quieter, Safer and Smoother journey.

Experience a quieter, safer and smoother journey. The new TURANZA T005A is engineered with Bridgestone's advanced technology to take care of your needs on the road. When you journey with the world's most trusted tyre brand, you know you'll always arrive at your best.

BRIDGESTONE'S BEST JUST GOT BETTER.

QUIETER

With minimal tyre noise, you can relax in total peace or stay completely focused on the journey ahead.

SAFER

Less to worry, more to enjoy. The new TURANZA T005A is designed to provide a better grip on roads to keep you safe, especially in wet conditions.

SMOOTHER

Enjoy a more comfortable and more stable drive on highways with reduced vibrations and road noise.

QUIETER

Variable Pitch

Randomised pitch variation is applied to each tread block (the inside shoulder, centre and outside shoulder) to reduce pattern noise.

High-Angle Sipes

The angle of the sipes to the contact line has been fine-tuned to soften tyre impact on the road, leading to a less pronounced pattern noise.

SAFER

Chamfering

Rounded sipe edges prevent tyre deformation and ensure a flat contact with the road, improving braking performance.

Test Conditions: Vehicle: Toyota Camry 2.5i 2016, Location: The Bridgestone Proving Ground, Speed: 80km/h, 90km/h, Water depth: 2mm

SMOOTHER

Optimised Contact Shape

Improved design ensures the tyre applies consistent contact pressure on the road, reducing shock and impact noise for better comfort.

Reinforced Sidewall

A stiffer sidewall (except for tyres with a low aspect ratio) reduces damping and improves comfort.

New Compound

Nano Pro-Tech™ and a compound agent are used to strengthen the bond between silica and polymer, increasing their contact area. This reduces heat generation and energy loss, leading to better wet performance.
