

# Frigo SUV2

A wallet-friendly tire that is suitable for all winter conditions

- Drivers will experience a **strong grip on snowy roads** thanks to the SUV Optimized Multi Directional tread design, which features multiple edges and sipes that dig into the snow to provide extra grip.
- The tire's new wide footprint delivers more contact between the tire and the road; delivering a **great braking performance on icy surfaces**.
- A full V-Shaped tread design disperses water effectively – providing **enhanced aquaplaning resistance**.
- A low rolling resistance tire construction reduces energy loss and **lowers a car's fuel consumption**.
