ROAD HAZARD

The DS2 is the first of its kind Ultra-High Performance Powerline tire, available in multiple wheel diameters with over 100 different sizes, accommodating many different vehicle makes and models. The DS2 features Delinte's proprietary QST Technology which accelerates water evacuation for enhanced performance in wet conditions. The DS2 also comes with a reliable 55K mileage warranty.

STAGGERED FITMENTS

The DS2 is a Powerline tire that comes in a vast amount of size offerings and staggered fitments.

ULTRA-WIDE TREAD GROOVES

Four extra-wide tread grooves accelerate water evacuation using QST Technology, which improves performance in wet conditions.

INTELLIGENT TREAD DESIGN

Optimized tread engineering with a large contact footprint increases control in all driving conditions, effectively reducing pattern noise and providing a comfortable ride.

ANGLED TREAD

Innovative tread design with 3D angled voids maximizes braking performance, and adds extra road traction.

SYMMETRICAL SHOULDER BLOCKS

Wide, symmetrical shoulder blocks give optimum stability during higher speed performance driving.

D-SHIELD 55K WARRANTY

The Delinte 55K Mileage & Road Hazard Warranty Plan for driving confidence for the life of the tire.

QST TECHNOLOGY

Delinte's proprietary Qirin Scale Technology suppresses the formation of water turbulence in the grooves of the tire, allowing faster water evacuation, and improving performance in wet conditions.

M+S RATED

The M+S rating on the tire sidewall indicates engineering for better traction in the mud and snow.
