

Newly developed light commercial vehicle summer tire

PorTran^{KC53}

- Improved durability and little wearing even with high loads
- Higher mileage and improved traction through robust carcass structure
- Optimized fuel efficiency through low rolling resistance
- Excellent driving quality on wet & dry roads
- For lcvs, vans and caravans

Technology

-
- Higher Load Capacity**
 - Wide tread and stable block pattern for outstanding dry handling even with maximum load
 - Broad Cross-Grooves**
 - Precise steering ability even in wet curves
 - Mileage Increase and Optimal Rolling Resistance**
 - New rip style design for high durability and low fuel consumption
 - Improved Wet Performance**
 - Wide, straight circumferential grooves for exemplary aquaplaning performance as well as maximum braking ability and easy handling on wet roads
