MP82 Conquerra 2

FOR CROSSOVERS, SUVs AND PICKUP TRUCKS

M+S

Technical Highlights

Good safety and handling performance

Compact, sturdily designed shoulder blocks increase lateral rigidity and enable the good transmission of lateral forces. Thanks to the outstanding handling, a high degree of safety is achieved.

Better driving comfort

A large number of wave-shaped sipes, which follow the block structure, enable the blocks to roll in and out smoothly. Driving comfort is improved as a result of the reduction in tyre noise.

High mileage

The new silica compound with optimised tread pattern delivers low rolling resistance, optimised pressure distribution and low wear. This also increases tyre life.

EU tyre label categories: ⊙¹ = Fuel Efficiency, ⊙² = Wet Grip, dB = Value in decibels, 🔊 = Noise, 🌨 = Snow Grip, 🏔 = Ice Grip
 XL = EXTRA LOAD - tyre with increased loadability | FR = Rim protection | LI = Load index | SI = Speed index
