EFFECTA +

THE TYRE FOR HIGH MILEAGE AND LOW FUEL CONSUMPTION

Drive further for less. The effecta+ is a long-lasting tyre for budget-conscious drivers. Easy on fuel, it gives reliable handling in wet or dry conditions.

PASSENGER

STANDARD

LOW FUEL CONSUMPTION

Save on fuel bills. The effecta+'s low-weight construction and tread design combine to make the tyre easier to roll, reducing fuel consumption and CO₂ emissions.

DEPENDABLE DRY AND WET HANDLING AND BRAKING

The effecta+ delivers reliable handling in both dry and rainy conditions. Our special rubber compound is optimised for good braking performance on wet roads.

LOW NOISE LEVELS

A quieter tyre gives you a more comfortable ride and reduces noise pollution. The effecta+ tread blocks are designed to reduce noise levels.

HIGH MILEAGE

Get more mileage for your money. The effecta+ is shaped to keep more rubber in contact with the road so that wear occurs more evenly. The special rubber compound is long-wearing for extra durability.
