

High performance summer tire exclusive for EV

ADVAN Sport EV

ET
SILENTFOAM
 Pattern No.V108
 REDUCE NOISE FROM TIRE

Proven and reliable pattern design, V107

Exclusively designed polyurethane foam

SILENTFOAM REDUCE NOISE FROM TIRE

Exclusively designed polyurethane foam reduces cavity noise* which comes from uneven road surfaces and bumps. This gives a comfortable in-vehicle experience and suppresses noise outside the vehicle.

*The noise, which is transmitted from the wheel rims to the interior of the Car

ADVAN EV Compound

- **Electricity consumption**
 Consumption performance is achieved by uniformly blending Silica with a Silica dispersant, noise and reduce external vehicle noise.
- **Wet performance**
 The polymer blend and Silica content focus on rolling resistance and wet performance.

Benefits & Features

- **Better electricity (fuel) consumption**
 Low RRC compound contributes to extend the cruising range. It was originally developed in the development of tyres for the premium OE.
- **Comfortable riding experience**
 Road noise is reduced dramatically by special equipment named **SILENTFOAM**. It will give you quietness while driving premium EV.
- **Safety driving on wet road**
 OE based compound and reliable V107 pattern design provide relief in wet road condition.
